

# Classic Design Series

Just as natural granite is made of grains from fine to course in appearance, Sprayable Solid Surface is as well. Sprayable Solid Surface is divided into two series — the Classic Design Series and the Premium Design Series. The Classic Design Series offers chips from fine to medium, while the Premium Design Series offers a mix of all chip sizes, including coarse. Regardless of the series, there are a wide variety of blends to select from.

*Safe Bathing for people of all abilities*

# Premium Design Series

Colors are representational. For an accurate example of our colors, please contact us for a sample. Colors with an asterisk (\*) represent blends with a shimmer affect that might not be noticeable in the photograph.
